**Goods that might contain asbestos**

Asbestos is still used outside Australia in many applications. The following imported goods are considered high risk for containing asbestos and ACM:

- Asbestos bitumen products used to damp proof
- Asbestos rope
- Asbestos tape
- Brake linings or blocks
- Cement flat sheeting or panels
- Cement pipes, tubes or fittings
- Cement shingles or tiles (external or ceiling)
- Clutch linings or brake disc pads
- Crayons
- Diaphragms
- Ducts
- Electrical cloth and tapes
- Electrical panel partitioning
- Fire blankets
- Fire curtains
- Fire-resistant building materials
- Furnaces
- Gaskets or seals
- Gloves
- Heat resistant sealing or caulking compounds
- Heating equipment
- Lagging and jointing materials
- Mastics, sealants, putties or adhesives
- Mineral samples for display or therapeutic purposes
- Mixtures containing phenol formaldehyde resin or cresylic formaldehyde resin
- Motor vehicle parts such as friction materials
- Pipe spools
- Raw materials from mining activities
- Sheet vinyl backing
- Sheeting
- Textured paints or coatings
- Tiles
- Yarn and thread, cords and string, whether or not plaited
